| USGS Topo Name:   | Safford, AZ 7.5'   |
|-------------------|--|
| Canal Length:     | 4.0 kilometers or 2.5 miles plus yet undetermined sources. |
| Canal Slope:      | Unknown; depends on sourcing.                              |
| Nominal Size:     | 1 meter wide 30 cm deep                                    |
| Land Ownership:   | Arizona State Lands; Cemetery; other private.              |
| Access:           | Some property posted.                                      |
| Field Verified:   | 30 percent   |
| Hanging Features  | Well defined and medium high.                              |
| Study Confidence: | Very high but sourcing and slope need further work.        |

**Locations of interest:** 

| N 32 45.633' W 109 44.091' | Southernmost extent of present east canal research    |
|----------------------------|---|
| N 32 45.685' W 109 44.008' | Canal vanishes under cemetery maint structures        |
| N 32 45.760' W 109 43.955' | Briefly obvious resumption north of cemetery          |
| N 32 45.794' W 109 44.022' | "U turn" or "sweeping S" crossing of 4WD track        |
| N 32 45.776' W 109 44.051' | Second sharp "U" turn in wash                         |
| N 32 45.862' W 109 44.041' | Eastern limit of ponding area                         |
| N 32 45.942' W 109 44.060' | Ponding area trashed by modern water project          |
| N 32 46.031' W 109 44.312' | Western limit of ponding area                         |
| N 32 45.913' W 109 44.519' | Southernmost extent of present west canal research    |
| N 32 45.854' W 109 43.898' | Curious rock alignments remaining largely unevaluated |

Significant Features:Ponding area has TWO distinct major feeder canals.<br/>Ponding area has significant cultural features nearby.<br/>Ponding area is single walled and has parallel channels.<br/>Hanging portion and sweeping "S" turns maintain grade.<br/>Simultaneous presence of canals, grids, and mulch rings.<br/>One of few reasonably established feeder canal end use areas.

## Present work that needs done on the Twin East Canal...

- Carefully map cultural features in ponding area.
- Resolve multiple routes in ponding area.
- Verify negative slopes of both feeder canals in additional places.
- Extend west feeder southwest and seek Deadman or other link.
- Resolve Deadman canal destinations.
